

Fujian Keheng New Material Co., Ltd. is a National high-tech enterprise which specializes in research, design, produce and sales industrial pipes, valves, fittings and special equipment pressure piping system. We professional produce corrosion resistant, acid and alkali resistant, high temperature resistant UPVC, CPVC, PPH, PPR, PVDF and PE's pipes, fittings, true union ball valves, electric/pneumatic ball valve, butterfly valves, foot valve, check valve, Y sediment strainer etc. The products conform to GB, ANSI, IS, DIN and CNS standard.

Keheng has a high-quality production and R&D team. Product's design, research and development, mold manufacturing all finished by our team independently. We established strategic technical cooperation with Jimei University and Xiamen Institute of Technology, and pay attention to keep good interaction with domestic and foreign academia. So far, we owned 34 patents, and 10 patents under applying.

After years of development, the management system has been gradually improved. The company has obtained ISO9001 quality management system certificate, ISO14001 Environmental management system certificate, ISO45001 Occupational Safety and Health Management system certificate, ISO50001 Energy management system certificate, certificate of ISO 7001-2019 Quality assurance system of special equipment manufacturers, drinking water sanitation license, National high-tech enterprises, National and Provincial green factories, "Specialized and New" enterprises in Fujian Province, Small Giant of Science and Technology in Fujian Province, Small and medium-sized enterprises of science and technology in Fujian Province, Small and medium-sized enterprises of innovation in Fujian Province, etc. Our products have passed the quality test of National Quality Inspection and Testing Center of Plastic Product, SGS and other third parties.

Our company's products feature excellent performance, high precision and long service life. They are widely used in the PCB electronics industry, semiconductor industry, environmental protection industry, new energy industry, seawater desalination, high-end aquaculture, high-end agriculture, power plant construction and many other industries involving heavy acids and heavy alkalis. We will continue to provide customers with high cost-effective pipeline system solutions.

Corporate core values: innovation is foundation, quality is life, environmental protection is obligation, safety is responsibility, energy saving is the benefit.

Corporate philosophy: Safety, green, low-carbon, intelligentize, innovation.

Corporate vision: To contribute to the global environmental protection, and contribute to the green mountains and clear waters of our motherland.

Scientific and technological innovation creates Wonderful Future! Keheng will always pay attention to your needs, and work with you to create a wonderful future!
